Dear Sir and Madam,

*The 34th Clean Coal Day International Symposium & The Energy Security with
Decarbonization Symposium 2025*

January 2026

Call for Paper!
Share your decarbonization efforts to the world with us
~JCOAL e-book2025~

We would like to express our sincere appreciation for your continued support of the activities to us, JCOAL. In particular, we are deeply grateful for your participation in the above-mentioned international symposium held in September 2025.

As explained in our earlier communications, we are planning not only to circulate the outcomes of the symposium by using JCOAL Statement, but also to further enhance the visibility of the symposium and broadly promote your carbon neutrality initiatives globally through the publication of the “JCOAL e-book 2025,” which will be disseminated worldwide.

In addition to providing an overview of the symposium outcomes, the e-book will introduce carbon neutrality initiatives undertaken by companies inside and outside of Japan. Regardless of whether you participated at the symposium, we would like to widely share your efforts with the international community. To this end, we are now inviting contributions from a broad range of stakeholders who wish to participate in this initiative.

Sincerely yours,

ODA Toshiyuki

Director-General, International Collaboration Department

We will share information about the symposium and the activities of companies working toward carbon neutrality and decarbonization with countries around the world, including those organizations that did not participate in the symposium. This initiative aims to further contribute to the expansion of global networks among researchers and industry players, as well as to promote the development of broader platforms for collaboration among companies.

Let's share your decarbonization initiative to the world with us!!
